

## Establish the Network

- Create a recognisable brand for the Network
- Create an aim for the Network
- Create opportunity for WA program participants to engage in Network Activities by rotating events around WA
- Ensure value for WA participants in the Australasian Local Government Performance Excellence Program
- Grow the number of WA program participants

## Leadership

- Collaborate with program partners to ensure the development and relevance of the Australasian LG Performance Excellence Program
- Partner with LG Professionals WA Networks to promote the Network and the Australasian LG Performance Excellence Program
- 'Lead' the sector to use data and analytics to evaluate and improve the understanding of operational and management performance

## Fostering Excellence

- Drive to innovate performance improvement using benchmarking and data analysis
- Collaborate with program partners to positively impact local government service delivery

## Professional Development

- Facilitate professional development opportunities
- Develop LG talent to maximise the value of the Australasian LG Performance Excellence Program

### Aim

The Benchmarking Performance Network's aim is to promote and facilitate the use of benchmarking and data to inform on performance and drive continuous improvement through local governments working together
